Professional Summary

IT professional who has moved past the student stage, consolidating practical experience in a corporate context. During my past trajectory providing technological services support at Falabella corporation, specifically for the Home Delivery division (Villa El Salvador), I developed solid interdepartmental customer service skills and a deep understanding of home delivery logistics operations. My time in this challenging logistics sector demonstrated my inventiveness in problem-solving and a vision oriented towards the technological vanguard. A major challenge overcome was the massive processing of package dimensions, where I coordinated a dual strategy with my team: we covered immediate manual configuration while implementing a definitive solution based on artificial intelligence models, obtaining satisfactory results. Throughout my work, I have maintained strict and unwavering respect for my contractual responsibilities; my cycle at this great company concluded by fully completing my contract for almost two years. Today, I maintain a firm commitment to work ethics, prioritizing trust with my colleagues and promoting a healthy work culture in every new challenge.

Work Experience

Logistics Configurations - Home Delivery

Falabella Group | Internship contract (Aug. 2024 - Apr. 2026)

- Applied knowledge in data extraction and database management to optimize logistics calculations.
- Automated processes using Python for product dimension extraction (length, width, height, weight) from text files, facilitating validation and logistical viability of deliveries.

Skills & Expertise

Applied Computing Experience

- **Automation Management:** Web scraping, Data extraction from websites, Handling HTTP requests using POSTMAN
- **Massive Data Processing:** Python automation
- **Business Intelligence:** POWERBI usage
- **Database Management:** Big Query

IT Skills

- **Web Development:** HTML / CSS / JavaScript (Web page creation)
- **Linux:** Azure Virtual Machines, Linux operating systems configuration
- **Office Automation (Advanced):** Data analysis in Excel, Complex documents in Word, Cloud document management

Languages

English

- **Certification:** Linguaskill Level B2
- **Issued by:** Cambridge University Press & Assessment (May 2026)
- **Outstanding achievement:** Level C1 in Listening aptitude
- **Credential ID:** LG0000032680

Education

Universidad Peruana de Ciencias Aplicadas, Lima, San Miguel
B.S. in Management Information Systems, General

Certifications and Courses

Technological Certifications

- **IBM:** Generative AI: Introduction and Applications (Issued: May 2026, ID: B7TDED2NAURF)
- **IBM:** Generative AI: Prompt Engineering Basics (Issued: May 2026, ID: TOFOXHHCUUOR)
- **IBM:** Generative AI: Impact, Considerations, and Ethical Issues (Issued: Jun 2026, ID: F8C54EX3XE1C)
- **IBM:** Generative AI: Business Transformation and Career Growth (Issued: Jul 2026, ID: 34YXAPVJUJ2F)
- **Google:** Operating Systems and You: Becoming a Power User (Issued: Jun 2026, ID: TUGLD6QIDGEN)
- **Google:** The Bits and Bytes of Computer Networking (Issued: Jun 2026, ID: WLEPSF35QLON)
